

LWS Project Scientist Status Meeting  
06-July-2006  
O. C. St. Cyr

\*[Heliophysics Roadmap](#)

Final version announced this past month.

\*[Solar Dynamics Observatory \(SDO\)](#)

SDO flight model structure undergoing shake tests last week.

\*[GEOSPACE](#)

Awaiting selection announcement from HQ for RBSP.

\*[SENTINELS](#)

Report of STDT in final form and headed to print.

\*[Solar Probe](#)

Risk mitigation studies of the primary thermal shield continue with the APL Engineering team. A splinter team led by JPL is studying accommodation of Plasma Wave Instrument antennas.

\*[Space Environment Testbeds \(SET\)](#)

CDR for SET-1 held last week.

\*[Targeted Research & Technology \(TR&T\)](#)

Report of Steering Committee online. Fall AGU session proposed by St. Cyr and Zanetti. Art Richmond reported on the activities of the thermospheric TR&T focus panel.

\*[LWS Education and Public Outreach \(E/PO\)](#)
